

# सेवा-Connect

## An NGO Resource and Donation Management System

A website to connect donors and NGOs to facilitate donations.

### Sprint Duration: 1 week

**Sprint 1 (Ongoing):** To decide colour scheme, logo, and create system architecture diagram, home page, registration and login page design.

### Product Backlog (Selected for Sprint 1)

- Finalise colour schema (done)
- Create a logo for the website (done)
- System Architecture Diagram
- Create registration/ login pages and a dashboard for donors and NGOs
- Verify Oracle database connection with Python (done)

### Sprint Backlog (Tasks)

Task	Assigned To
Registration Form Page Layout and Dashboard	Bansari & Rena
Discuss HTML form contents	Charmi
System Architecture Diagram	Dev
Database Connection verification and Login and Authentication details	Aaryan

### Sprint Review Output

- What did you complete yesterday?
- Decided on a warm, earthy colour scheme

Decided on a logo for the website

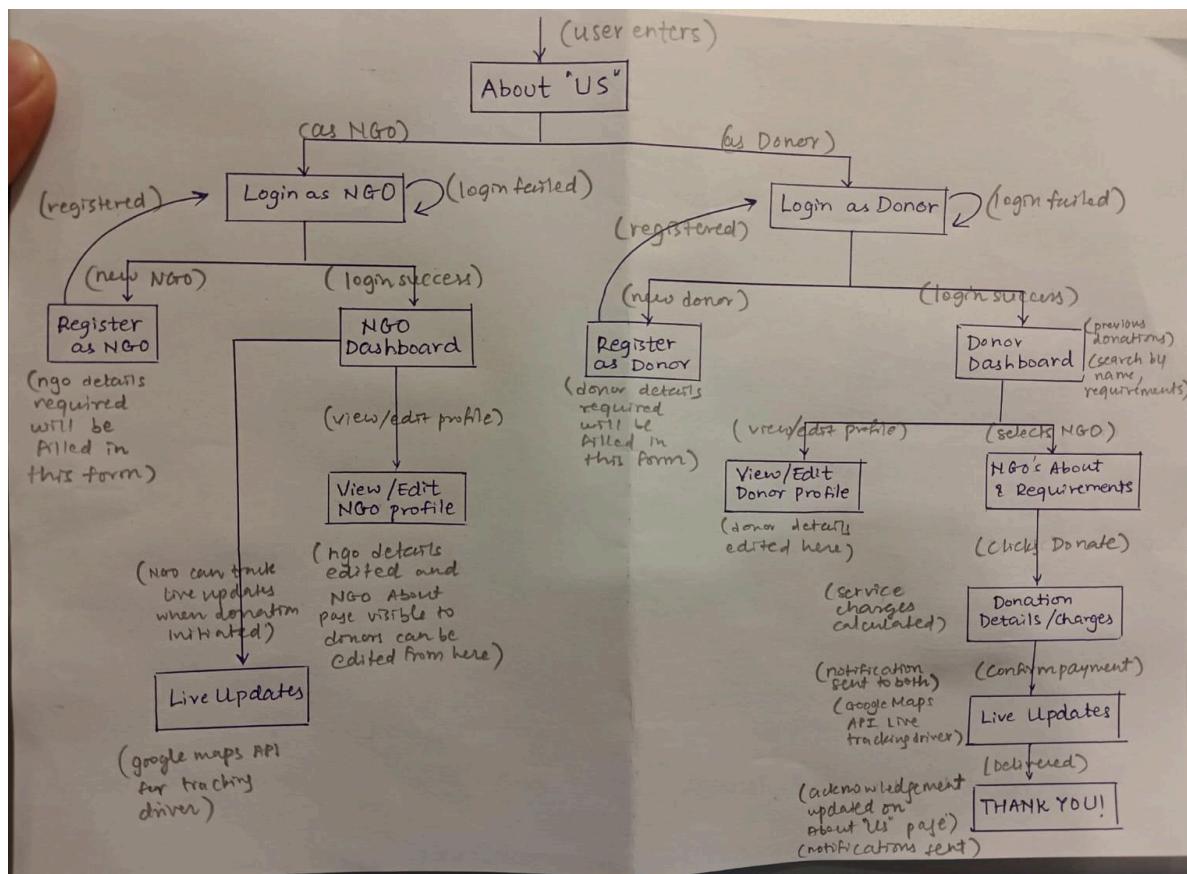

- Any problems faced in yesterday's task?

No problems faced

- What will you do today?

System Design Architecture Diagram:

(Boxes represent web-pages whereas arrows represent actions user does on that web-page)

## Sprint Retrospective

- Good task division
- Database design took extra time; Improve communication during testing
